Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No.	Applicant(s)
	10/797,272	HIGGINS, BRIAN S.
	Examiner	Art Unit
	Kenneth B. Rinehart	3749
The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply		
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).  Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).		
Status		
1) Responsive to communication(s) filed on 29	June 2005.	
	This action is <b>FINAL</b> . 2b) This action is non-final.	
3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11, 453 O.G. 213.		
Disposition of Claims		
4) ☐ Claim(s) 1-24 is/are pending in the application. 4a) Of the above claim(s) is/are withdrawn from consideration.  5) ☐ Claim(s) 17-24 is/are allowed.  6) ☐ Claim(s) 1-16 is/are rejected.  7) ☐ Claim(s) is/are objected to.  8) ☐ Claim(s) are subject to restriction and/or election requirement.		
Application Papers

#### **DETAILED ACTION**

# Response to Arguments

Applicant's arguments filed 6/29/05 have been fully considered but they are not persuasive. The applicant argues that Kindig does not anticipate staging for SO3 reduction. The examiner respectfully disagrees. As the cited passages disclose in the rejection, any fair reading of the reference will show that the reference reads on the claim limitations.

#### **Priority**

Applicant's claim for domestic priority under 35 U.S.C. 119(e) is acknowledged. However, the provisional application upon which priority is claimed fails to provide adequate support under 35 U.S.C. 112 for claims 1-24 of this application. Claims 1-24 make reference to low NOX burners, OFA, and staging to reduce SO3 while the provisional concerns water injection among other things.

### **Drawings**

The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81.

No new matter may be introduced in the required drawing.

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the staging, OFA, coal must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. Note: the examiner suggests using a flow chart to show the process steps for the entire <u>claimed</u> method including the SO3.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Kindig (4824441). Kindig shows a) partially combusting the fuel in a first stage to create a reducing environment (col. 10, lines 51-54), b) maintaining the reducing environment for a sufficient time period such that SO3 is reduced to SO2 to achieve a desirable level of SO3; (col. 13, lines 8-23,

Application/Control Number: 10/797,272

Art Unit: 3749

SO3 and SO2 are inherently produced during combustion, and reduction is inherently occurring.), c) combusting the remainder of the fuel and combustion intermediates in a second stage with oxidizing environment, combusting the remainder of the fuel in an oxidizing environment (col. 10, lines 43-47), thereby reducing the levels of SO3 in the flue gases, reducing the conversion of levels of SO3 in the flue gases, thereby controlling the levels of SO3 in the flue gases (col. 13, lines 20-22), micro-staging the first stage fuel combustion, the micro-staging is provided through the use of low-Nox burners (col. 12, line 43), macro-staging the first stage of fuel combustion, the macro-staging is provided through the use of over-fired air (col. 10, lines 46), including a combination of micro-staging and macro-staging (col. 12, line 43, col. 10, line 46), the micro-staging is provided by low-Nox burners and the macro-staging is provided by over-fired air (col. 12, line 43, col. 10, line 46), the fuel is coal (col. 1, line 16).

# Allowable Subject Matter

Claims 17-24 are allowed.

#### Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Application/Control Number: 10/797,272 Page 5

Art Unit: 3749

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth B. Rinehart whose telephone number is 571-272-4881. The examiner can normally be reached on 7:20 -4:20.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ira Lazarus can be reached on 571-272-4881. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
